Alcohol-resistant foam  
Dry chemical  
Carbon dioxide (CO<sub>2</sub>)

### **Unsuitable extinguishing media**

High volume water jet

### **Specific hazards arising from the chemical**

Do not use a solid water stream as it may scatter and spread fire  
Flash back possible over considerable distance  
Vapours may form explosive mixture with air  
Exposure to combustion products may be a hazard to health

**Hazchem Code: 3Y**

### **Hazardous Combustion Products**

Carbon oxides.

**Specific extinguishing methods** Use extinguishing measures that are appropriate to local circumstances and the surrounding environment

### **Protective equipment and precautions for firefighters**

In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment

## 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

**Personal precautions**                      Remove all sources of ignition  
     Use personal protective equipment  
     Follow safe handling advice and personal protective equipment recommendations

**Other Information**                              Refer to protective measures listed in Sections 7 and 8.

### Environmental precautions

**Environmental precautions**                Discharge into environment must be avoided.

### Methods and material for containment and cleaning up

**Methods for containment**                    Prevent further leakage or spillage if safe to do so.  
     Prevent spreading over a wide area  
     Retain and dispose of contaminated wash water  
     Local authorities should be advised if significant spillages cannot be contained

**Methods for cleaning up**                    Non-Spark tools should be used  
     Soak up with inert absorbent material.  
     Suppress (Knock down) gases/vapours/ mists with a water spray jet  
     For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining material from spill with suitable absorbent.  
     Local or national regulations may apply to releases a disposal of this material, as well as those materials from spill with suitable absorbent. You will need to determine which regulations are applicable.
